<http://www.lesacduberge.com>

Founded in 1980, the company designs and makes items from leather and hide: bags, briefcases, shoes, sandals, wallets, purses, belts, etc.

Three of its articles call on rare know-how: the "shepherd's bag", its flagship product, "shepherd" boots in leather and "Cévennes shepherd" capes in drummed wool. All of these items are hand-made. The company is well known among nomadic shepherds in the Mediterranean area. Products made by the company are sold directly at the workshop or via Internet. The company takes part in shepherds' festivals as well as the Salon de l'Agriculture Farming Show in Paris. The workshop can make any item in leather, wool skin or drummed wool to order.
