Dauvet has been the French benchmark for precious metal leaf since it was founded in 1834.

The house offers a wide range of products, spanning three main ranges: Gold/Silver des Arts; Gold/Silver des Chefs; Gold/Silver des Fêtes.

As part of the production process, the company uses 20 alloys graded 980‰ to 200. Its products are known among professionals for their gilding applications as well as for use in cosmetics and food.

Dauvet gold leaf has gilded several prestigious monuments such as Les Invalides, Shakespeare's Globe Theatre in London, the torch of the Statue of Liberty in New York and the Dome of the Orthodox Church in Geneva.

Dauvet works mainly for business accounts, but the workshop also supplies individuals.
