La Maison Dupuis, founded in 1983, specialises in roof and timber frame restoration work as well as in masonry. The workshop excels in its know-how of specialist operations allowing the safeguarding of heritage, in particular for Historical Monuments. The company has comprehensive skills, handling all types of roof: slate, tile, zinc, copper, lead. It carries out the restoration of frames, half-timbered facades, wooden frames, cladding. It is also able to restore brick and flint walls and to work with concrete/hemp. Its clients are mostly institutions and private owners. The company holds 17 Qualibat qualifications, including: 3193 - Heritage Roofing; 3194: Historical Monument Roofing; 2181: Restoration of heritage masonry and 2392: Heritage framework; etc.

References of intervention on Historical Monuments include: the churches of Ste Marie Madeleine at Mesnil sur l'Estrée (27), Notre Dame at Envermeu (76), St Hilaire at Rouen (Apse of the choir), the Rouen Cathedral (roof), Huit Routes farm (Rosny sur Seine, on behalf of the Cité Régionale de l'Environnement), etc.
