Borzeix Besse specialises in making bespoke chocolates and chocolate pieces. It also offers an additional range of pastries for sale in its other stores: macaroons, weekend cakes, confectionery, etc. All production stages are carried out on a single site, and the cocoa mass and fillings for the chocolates are made from fresh ingredients, using no frozen ingredients, preservatives or artificial flavours.

The firm hand-sculpts bespoke monumental pieces, uses carefully sourced ingredients and has an established clientele. It was set up in the region in 1909.

Borzeix Besse works for various personalities. Some of its products are displayed at the Treignac chocolate museum attached to the factory. It works to order and sells its products at the factory shop, as well as by mail order and through its three stores in Brive, Clermont-Ferrand, Limoges and Treignac.
