Jallu Ebénistes creates museum quality furniture, wall panels, one of a kind pieces and bespoke commissions using straw marquetry, gypse, mica, vellum & parchment, precious wood veneers and fine metal work. The company is one of the only furniture making workshop in Europe to have mastered all of these finishes and techniques which were popular during the Art Deco period. Using a mixture of old world tradition and modern technology Jallu Ebénistes can incorporate these ideas, materials and techniques into any contemporary or classic design project.

The workshop has been working with esteemed Architects and Interior Designers on their luxury bespoke projects for more than 15 years and it strives for excellence using the highest quality materials craftsmanship, precision and attention to detail as well as a completely professional standard of service.
