Solag is a company specialising in the restoration and renovation of floors. It works on varied surfaces: marble, stone, terrazzo, mosaic, tiles, terracotta, etc.

The workshop's particular feature is its mastery of all the know-how required for the restoration and preservation of all kinds of old floors: i.e. the criteria for the ageing of materials, the various techniques of laying down floors over the centuries, the maintenance processes, stripping, sanding, patines, conservation processing .

Solag's restoration work also involves heritage sites. The company works principally on behalf of private owners. It also takes on the role of expert in the restoration of old floors, notably as a subcontractor for heritage restoration companies and architects, as well as construction experts.
