---

Founded in 1976, the company is specialised in making fine cabinet work for cigars, watches, pens, jewellery, etc.

Its rare know-how is related to the excellent command and application of techniques such as traditional assembling or wood, mother of pearl and shagreen marquetry. It selects some of the rarest types of wood. In recent years, the company has developed a new area of expertise: case making, to meet requests for specific box interiors.

The company carries out specific orders for luxury brands and also works on its own models in the Elie Bleu range. The latter are sold through a network of 200 multi-brand luxury boutiques in the biggest cities in the world (department stores, decoration shops, tobacconists like Tanagra in the Middle East, Harrods in England or the Drugstore in Paris).
