

Bretagne

Région : BRETAGNE

In this region, each clump of gorse or granite rock conceals from view a glazier or a mason, a thatcher or a cabinetmaker, a coppersmith or an accordion-maker! Further on, a boatyard is the pride of this land of mariners. Tourists to Brittany, leaving aside the monuments for a moment, should make a point of stopping off at these firms that contribute so much to the beauty of its heritage.
